AVENO HVLPD 46

0002-000254

Description

AVENO HVLPD 46 is a multi-grade hydraulic oil developed on the basis of specially selected base oils. AVENO HVLPD 46 offers a high wear protection, even under extreme loads, thanks to effective additives. AVENO HVLPD 46 additionally contains dispersing and detergent ingredients, which always ensure clean hydraulics. These additives loosen impurities and keep them suspended, enabling the dirt to be cleaned from the dirty hydraulic systems. The functional elements of a hydraulic system are therefore kept clean from sediment and adhesions. Seeping water is emulsified and ensures the operation of the hydraulic system remains trouble-free.

Instructions for use

AVENO HVLPD 46 can be used primarily in hydraulic systems with heavily fluctuating operating temperatures. AVENO HVLPD 46 is ideal for heavy-loaded hydraulic systems, earth-moving machines and agricultural machinery. It is favored at heavily fluctuating operating temperatures and may not be used in hydraulic systems which contain silver or silver-plated construction and operating elements.
